All financial information is presented in U.S. dollars unless otherwise indicated.

Toronto, Ontario – June 11, 2019 – Tricon Capital Group Inc. (“Tricon” or the “Company”, TSX: TCN) and Starlight U.S. Multi-Family (No. 5) Core Fund (the “Fund”, TSXV: STUS.A, STUS.U) announced today that Tricon has completed the previously announced acquisition of the Fund. Tricon’s shareholders and the Fund’s unitholders both overwhelmingly approved the proposed acquisition at their respective special meetings held on June 6, 2019. Following the special meetings, the Court of Queen’s Bench (Alberta) issued a final order approving the acquisition on June 7, 2019.

The acquisition of the Fund establishes a new U.S. multi-family platform for Tricon. The acquired portfolio consists of 23 high quality properties with an average vintage of 2012 totalling approximately 7,300 units. The assets are primarily garden-style apartment complexes featuring resort-style amenities and are located in desirable suburban neighbourhoods within U.S. Sun Belt states. The acquisition was valued at approximately \$1.4 billion including the issuance of 50,779,311 Tricon common shares (“Tricon Shares”) to the Fund’s unitholders and Tricon indirectly assuming approximately \$916 million of the Fund’s existing debt. Based on the closing trading price of Tricon Shares on the TSX on June 10, 2019, the total consideration payable (including assumed debt) was approximately \$1.33 billion.

“The establishment of a growth-oriented U.S. multi-family rental platform is an exciting milestone for Tricon, as it accelerates our shift to predictable income streams and uniquely positions us as a provider of both multi-family and single-family rental housing to the middle market resident demographic within attractive Sun Belt markets,” said Gary Berman, Tricon’s President and CEO. “We are now focused on ensuring a smooth integration of asset management, exploring property management synergies with our single-family rental business, and ultimately attracting third-party capital to accelerate growth and drive operating efficiencies.”

With the acquisition of the Fund’s portfolio, Tricon is poised to generate recurring rental income from approximately 10,300 multi-family apartment units across stabilized and development assets, as well as a stabilized portfolio of over 18,000 single-family rental homes. Tricon now has approximately \$7.2 billion (C\$9.7 billion) of assets under management, and generates approximately \$30 million of recurring annual fee income from managing third-party assets.

“We thank our unitholders for their support since the inception of Starlight U.S. Multi-Family in 2013 which enabled the Fund to grow into a sizeable and attractive portfolio,” said Daniel Drimmer, Chief Executive Officer and Director of Starlight U.S. Multi-Family (No. 5) Core GP, Inc., the general partner

of the Fund. “We look forward to becoming shareholders of Tricon and joining a larger and more diversified company that is well positioned to grow and create value.”
