FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2016

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

1. NATURE OF BUSINESS

Tricon Capital Group Inc. ("Tricon" or the "Company") is a principal investor and asset manager focused on the residential real estate industry in North America. In the Principal Investment portfolios, the Company primarily invests through Tricon Housing Partners, Tricon American Homes, Tricon Lifestyle Communities and Tricon Luxury Residences. In Private Funds and Advisory, the Company manages, on behalf of private investors, commingled funds, side-cars and separate investment accounts that invest in the development of real estate in North America and generate contractual fee income for the Company.

Tricon was incorporated on June 16, 1997 under the Business Corporations Act (Ontario) and its head office is located at 1067 Yonge Street, Toronto, Ontario, M4W 2L2. The Company is domiciled in Canada. Tricon became a public company on May 20, 2010, and its common shares are listed on the TSX (symbol: TCN).

These condensed interim consolidated financial statements were approved for issue on August 9, 2016 by the Board of Directors of Tricon.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies applied in the preparation of these condensed interim consolidated financial statements.

BASIS OF PREPARATION

The condensed interim consolidated financial statements are prepared on a going-concern basis and have been presented in U.S. dollars, which is also the Company's functional currency. All financial information has been rounded to the nearest thousand U.S. dollars except where otherwise indicated.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". They should be read in conjunction with the annual Audited Financial Statements for the year ended December 31, 2015, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") under the historical cost basis except for (i) investments in Tricon Housing Partners, Tricon American Homes, Tricon Lifestyle Communities and Tricon Luxury Residences and (ii) derivative financial instruments, which are recorded at fair value through profit or loss ("FVTPL").

The Company presents its condensed interim consolidated balance sheet with its assets and liabilities in decreasing order of liquidity. The notes to the condensed interim consolidated financial statements provide information on the Company's current assets and current liabilities (Note 18). The Company believes this presentation is more relevant given the nature of the Company's operations, which do not have specifically identifiable operating cycles.

ACCOUNTING STANDARDS ADOPTED IN THE CURRENT YEAR

IAS 1, "Presentation of Financial Statements", was amended in December 2014 to clarify guidance on materiality and aggregation, the presentation of subtotals, the structure of financial statements and the disclosure of

accounting policies. The Amendment was adopted on January 1, 2016, without a significant impact on Tricon's balance sheet and statement of operations.

ACCOUNTING STANDARDS ISSUED BUT NOT YET APPLIED

IAS 12 was amended to clarify the requirements for recognizing deferred income tax assets on unrealized losses, deferred income taxes where an asset is measured at fair value below the asset's tax base, and certain other aspects of accounting for deferred income tax assets. The amendments are effective on or after January 1, 2017. The Company is analyzing the amendments to determine their impact on Tricon's balance sheet and statement of operations.

In January 2016, the IASB issued an amendment to IAS 7 introducing an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities. The amendment is part of the IASB's Disclosure Initiative, which continues to explore how financial statement disclosure can be improved. The amendment is effective from January 1, 2017 and earlier application is permitted. The Company is analyzing the amendment to determine its impact on Tricon's statements of cash flows.

3. PREPAID EXPENSES AND DEPOSITS

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Deposits for investments	\$ 5,550	\$ 436
Deposits for office building	2,134	1,626
Other prepaid expenses		
and deposits	614	480
Total prepaid expenses		
and deposits	\$ 8,298	\$ 2,542

4. INVESTMENTS

Investments – Tricon Housing Partners ("THP") are land and homebuilding investments or co-investments in funds, separate accounts and side-car investments managed by the Company.

Investments – Tricon American Homes ("TAH") are investments in operating entities which invest in U.S. single-family rental homes. The investments are managed through an integrated business platform managed by the operating entity, which is responsible for the acquisition, renovation and leasing of the homes.

Investments – Tricon Lifestyle Communities ("TLC") are investments in U.S. manufactured housing communities that lease land to owners of prefabricated homes.

Investments – Tricon Luxury Residences ("TLR") are investments in U.S. and Canadian Class A multi-family rental developments.

The Company makes these investments via loan advances and equity investments. The following is a summary of the composition of the Company's investments:

	June 30, 2016			D	December 31, 2015			
(in thousands of U.S. dollars)	Internal debt instruments	Equity	Total investment	Internal debt instruments	Equity	Total investment		
Investments – THP

	20,118	250,598	270,716	18,000	285,782	303,782		
Investments – TAH	-	512,024	512,024	-	426,030	426,030		
Investments – TLC	-	33,106	33,106	-	19,153	19,153		
Investments – TLR	-	53,212	53,212	-	19,582	19,582		
Total	\$ 20,118	\$ 848,940	\$ 869,058	\$ 18,000	\$ 750,547	\$ 768,547		

The underlying loan instruments within the Company's Tricon Housing Partners investments are denominated in U.S. dollars and bear interest at rates of between 9.45% and 11.95%, compounded monthly.

Each investment vertical may utilize debt in order to finance normal business operations, with the debt secured by the underlying assets of the related investment. The Company has provided specific guarantees to the lenders of the TAH warehouse facility, the TLC mortgages and the TLR land and construction loans, each on a non-recourse basis subject only to specific carved-out events.

The following tables summarize the balances in the investment funds that are managed by Tricon, presented in the functional currency of the fund:

(1) Commitment, unfunded commitment, advances and distributions are shown in Fund or Separate Account originating currency.

(2) Investments at fair value as of June 30, 2016 and December 31, 2015 are shown in U.S. dollars.

(3) \$226,775 represents the Company's total fund commitment; the purchase price of the 68.4% interest was \$260,500.

(4) The cumulative actual cash distribution received from THP1 US was reduced by \$1,281 of withholding tax.

5. FAIR VALUE ESTIMATION

In the fair value hierarchy, the level in which the fair value measurement is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement. For this purpose, the significance of the input is assessed against the fair value measurement. Assessing the significance of a particular input to the fair value measurement requires judgment, considering factors specific to the asset or liability. The following describes the categories within the fair value hierarchy:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Inputs for the asset or liability that are not based on observable market data.

The following table provides information about financial assets and liabilities measured at fair value on the balance sheet and categorized by level according to the significance of the inputs used in making the measurements:

		June 30, 2016		December 31, 2015

FINANCIAL ASSETS VALUATION METHODOLOGIES

The Company's Valuation Committee is responsible for fair value measurements included in the financial statements, including Level 3 measurements. The valuation processes and results are reviewed and approved by the Valuation Committee at least once every quarter, in line with the Company's quarterly reporting dates. Valuation results are discussed with the Audit Committee as part of its quarterly review of the Company's financial statements.

The Company used the following techniques to determine the fair value measurements included in the financial statements categorized in Level 3:

Investments – Tricon Housing Partners

Tricon establishes wholly-owned subsidiaries that invest in the limited partnerships as a limited partner. The investments are measured at fair value as determined by the Company's proportionate share of the fair value of each limited partnership's net assets at each measurement date. The fair values of each limited partnership's net assets are calculated by determining the fair values of the underlying projects using discounted cash flows, appraised values or share prices as reported on the appropriate stock exchange. In addition to the investments in limited partnerships, the Company invests in separate accounts and side-car investments through limited partnership with other third parties. Tricon's ownership interests in these investments are held through the Company's wholly-owned subsidiaries. The investments are measured at fair value as determined by the waterfall distribution calculations specified in the relevant limited partnership agreement. The inputs into the waterfall distribution calculations include the fair value of the land and working capital held by the limited partnerships. The fair value of the land is based on appraisals prepared by an external third-party valuator or on internal valuations.

A side-car is a co-investment vehicle under common sponsorship with a Tricon fund. Tricon's ownership interests in the side-car are held through the Company's wholly-owned subsidiaries. The side-car generally participates in larger investment opportunities provided by the fund sponsor or general partner. The measurement and valuation methodologies for side-cars are the same as those for the limited partnership investments.

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

Quantitative information about fair value measurements of the investments uses the following significant unobservable inputs (Level 3):

Description	Valuation technique(s)	Significant unobservable input
Debt investments	Discounted cash flow	a) Discount rate ¹
		b) Future cash flow
Equity investments		
Commingled funds	Net asset value	a) Discount rate ²
		b) Future cash flow
		c) Control premium/discount, if any ³
Separate accounts and side-cars	Waterfall distribution model	a) Discount rate ²
		b) Future cash flow
		c) Appraised value ⁴

(1) The range of discount rates in the discounted cash flow model was from 10% to 12%.

(2) The range of discount rates in the discounted cash flow model was from 12.5% to 20.0%. Generally, an increase in future cash flow will result in an increase to the fair value of debt instruments and fund equity investments. An increase in the discount rate will result in a decrease in fair value of the debt instruments and fund equity investments. The same percentage change in the discount rate will result in a greater change in fair value than the same absolute percentage change in flow.

(3) As at June 30, 2016, the THP1 US Co-Investment included a Control Premium of \$610.

(4) The Company obtained external valuations for seven separate account equity investments at December 31, 2015, totaling \$22,929. The Company's investment team and finance team verify all major inputs to the valuation and review the results with the independent appraiser. The significant input within the appraised value is the value of land per acre. External valuations are obtained annually and the Company assesses whether any changes to inputs would have a significant impact on the loan balances as at June 30, 2016.

Sensitivity

The effects on Investments - Tricon Housing Partners of a 1% change in the discount rates are as follows:

		June 30, 2016		December	31, 2015
(in thousands of dollars)	Currency	1% increase	1% decrease	1% increase	1% decrease
U.S. funds	US	\$ (2,806)	\$ 3,396	\$ (1,437)	\$ 1,470
Canadian funds	CA	(255)	264	(264)	274
Separate accounts and side-cars	US	(370)	381	(424)	435

Investments – Tricon American Homes

All of the Company's investments in Investments – TAH limited partnerships are held through a wholly-owned subsidiary, Tricon SF Home Rental Inc., and are recorded at fair value. The fair value of the Company's investment in Tricon SF Home Rental Inc. is calculated based on Tricon's proportionate share of each entity's fair value of net assets. The fair value of the net assets of the various entities is based on a sum-of-the-parts approach, where assets and liabilities are measured at fair value individually.

Home values do not change materially in the short term, and capital expenditures do not significantly impact values in the first three months after purchase. As a result, homes acquired in the quarter are recorded at their purchase price plus the cost of capital expenditures, if applicable. Homes acquired prior to April 1, 2016 were valued at May 31, 2016. Management has assessed the impact of any market changes that have occurred subsequent to the date of valuation and has determined that values were valid at June 30, 2016.

During the quarter, the Broker Price Opinion ("BPO") valuation methodology was used to determine the fair value of 403 of TAH's rental properties acquired before April 1, 2016. The homes were valued by independent brokers who hold active real estate licenses and have market experience in the locations and segments of the homes valued. The brokers value each home based on recent comparable sales and active comparable listings in the area, assuming the homes were all renovated to an average standard in their respective areas. The BPO retrieves information on the comparable properties from the Multiple Listing Service ("MLS") public database.

The remainder of the rental properties, including those previously valued by BPO, had their values updated using the Home Price Indexes ("HPI") methodology. The HPI is calculated based on a repeat-sales model using large real estate information databases compiled from public records. Twelve-month trailing HPI was used where the quarterly HPI change was determined by averaging the index movement over the past 12 months. The quarterly HPI change is then applied to the previously recorded fair value of the investment properties.

In addition to the investment properties generating rental income, a small percentage of the investment properties are held for resale. These inventory properties were originally purchased as rental properties but subsequently selected for sale through the investee's active asset management process. All inventory homes are valued at the lower of carrying amount and fair value less cost to sell.

The Company also takes into account the carried interest payable to local operating partners as general partners of some of the underlying limited partnerships in determining the fair value of its investment. The carried interest amounts are based on waterfall distribution calculations specified in the relevant limited partnership agreement with each local operator and may result in the payment of a performance fee to the general partner once limited partners receive their capital and preferred return. The fair value of external debt is based on a discounted cash flow model at a market rate of interest that the limited partnerships would have obtained for similar financing. Deferred income taxes are based on the enacted tax rates for future years, with fair values determined by discounting to the reporting period. Working capital of the limited partnerships approximates fair value.

Sensitivity

The TAH debt facility is subject to variable rates based on the one-month LIBOR plus 300 basis points, subject to a 25 basis point LIBOR floor. As of June 30, 2016, the rental partnerships and the Company as its sponsor are in compliance with the financial covenant and other undertakings outlined in the loan agreement (previously, the rate was three-month LIBOR plus 360 basis points, subject to a 50 basis point LIBOR floor). The one-month LIBOR during the six months ended June 30, 2016 ranged from 0.43% to 0.44%. If interest rates had been 10 basis points lower, with all other variables held constant, Investment income -TAH for the six months ended June 30, 2016 would have been \$148 (2015 - \$0) higher. At June 30, 2016, if interest rates had been 10 basis points higher, with all other variables held constant, Investment income -TAH for the six months ended June 30, 2016 would have been \$148 (2015 - \$5) lower. Investment income is more sensitive to interest rate increases than decreases because of the interest rate floor on borrowings. The calculated impact of a 10 basis point increase is higher in the six months ended June 30, 2016 than in the six months ended June 30, 2015 because of the decrease in the interest rate floor from 0.50% on the three-month LIBOR to 0.25% on the one-month LIBOR effective June 12, 2015 amendment.

TAH is indebted in the amount of \$361 million under a securitization loan. The securitization transaction involved the issuance and sale of single-family rental pass-through certificates that represent beneficial ownership interests in a loan secured by a portion of the Company's portfolio of single-family properties. Monthly payments of interest commenced on June 9, 2015. All outstanding principal and interest shall be paid in full prior to maturity on May 9, 2017, with three one-year extensions available at the Company's option. As of June 30, 2016, the securitization entity is in compliance with the covenants and other undertakings outlined in the loan agreement. Interest-only payments are required on the securitization loan at a weighted average interest rate of one-month LIBOR plus 1.96% per annum, subject to a 3.955% cap on the LIBOR rate. The one-month LIBOR during the six months ended June 30, 2016 ranged from 0.43% to 0.44%. If interest rates had been 10 basis points higher or lower, with all other variables held constant, Investment income – TAH for the six months ended June 30, 2016 would have been \$180 lower or higher (2015 – \$30).

If the prices of single-family rental homes held by the TAH limited partnerships were to increase or decrease by 1% (December 31, 2015 – 1%), the impact on Investments – TAH fair value at June 30, 2016 would be \$9,772 and (\$9,772), respectively (December 31, 2015 – \$9,705 and (\$9,705)).

Investments – Tricon Lifestyle Communities

The Company's investment in Investments – Tricon Lifestyle Communities ("TLC") is held through a wholly-owned subsidiary, Tricon Manufactured Housing Communities LLC, which carries the investment at fair value. The fair value of the Company's investment is estimated based on the Company's proportionate share of the net assets of the TLC limited partnership. The fair value of the net assets is based on a sum-of-theparts approach, where assets and liabilities are measured at fair value individually.

Since all variables impacting fair value of the investment property, such as rental growth, expense inflation and the impact of future capital expenditures, generally do not change significantly in the first 12 months after acquisition, investments are recorded at cost for the first 12 months after acquisition. As a result, these properties are recorded at their purchase price plus the cost of capital expenditures. Key variables are monitored on a quarterly basis to determine if there may be a material change in fair value.

The Company fair values the TLC properties using a discounted cash flow methodology. The fair value is determined based on rental income from the current leases and assumptions about rental income from future leases, such as increases in rental rates and occupancy, less future cash outflows in respect of such leases and capital expenditures. Other factors included in the future cash flow estimate are the terminal value of the underlying property based on reliable estimates of the terminal year Net Operating Income ("NOI"), supported by the terms of existing leases and assumptions of future leases, and market capitalization rates of comparable precedent transactions within each market.

The Company also takes into account the carried interest payable to the general partner of the underlying limited partnership in determining the fair value of its investment. The carried interest amounts are based on waterfall distribution calculations specified in the limited partnership agreement and may result in the payment of a performance fee to the general partner once limited partners receive their capital and preferred return. The fair value of external debt is based on a discounted cash flow model at a market rate that the limited partnership would have obtained for similar financing. Deferred income taxes are based on the enacted tax rates for future years. Working capital of the limited partnership approximates fair value.

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

Sensitivity

Since the rate of interest on borrowings incurred by Tricon Lifestyle Communities is fixed, Investment income – Tricon Lifestyle Communities for the period would not change due to interest rate fluctuations.

TLC's fair value measurements of its investments are based on significant unobservable inputs including discount rates and future cash flows. At June 30, 2016, an increase of 1% in the discount rate results in a decrease to fair value of (\$1,572), and a decrease of 1% in the discount rate results in an increase in fair value of \$1,600.

Investments - Tricon Luxury Residences

The Company's investment in TLR Canada is held through a whollyowned subsidiary, Tricon Luxury Residences Co-Investment Inc. Its investment in TLR U.S. is held through a wholly-owned subsidiary, Tricon SLR US Multifamily LLC. Both subsidiaries carry their investments at fair value. The fair values of the investments in TLR are estimated based on the subsidiaries' proportionate share of the net assets of TLR limited partnerships. The fair value of the net assets is based on a sum-of-theparts approach, where assets and liabilities are measured at fair value individually.

TLR Canada fair values its properties based on an external appraisal performed annually as of November 30 of each year. The fair value is determined based on active market prices (including, but not limited to, dollar value per square foot), adjusted (if necessary) for differences in the nature, location or condition of the asset, as well as assumptions about the recoverability of development costs. Management has assessed whether any market changes have occurred subsequent to the date of prior valuation and has determined that the value remained unchanged at June 30, 2016.

TLR U.S. fair values its properties using a discounted cash flow methodology. The fair value is determined based on assumptions about rental income from future leases, such as increases in rental rates and occupancy, less future cash outflows in respect of such leases and capital expenditures. Other factors included in the future cash flow estimate are the terminal value of the underlying property based on reliable estimates of the terminal year Net Operating Income ("NOI"), supported by the assumptions of future leases, and market capitalization rates of comparable precedent transactions within each market.

Sensitivity

TLR U.S.'s fair value measurements of its investments are based on significant unobservable inputs including discount rates and future cash flows. An increase of 1% in the discount rate results in a decrease to fair value of (\$904), and a decrease of 1% in the discount rate results in an increase in fair value of \$935.

TLR Canada's income is largely based on the fair value of appraised assets held for development at year end. As at June 30, 2016, an increase of 1% of the appraised value per square foot would result in an increase to fair value of \$38, and a decrease of 1% of the appraised value would result in a decrease in fair value of (\$38).

Continuity of investments

The following presents the changes in Level 3 instruments for the six months ended June 30, 2016 and December 31, 2015:

FINANCIAL LIABILITIES VALUATION METHODOLOGIES

Derivative financial instruments relate to the conversion and redemption features of the convertible debentures and are valued using model calibration, as discussed in Note 8. Inputs to the valuation model are determined from observable market data wherever possible, including prices available from exchanges and consensus pricing. Certain inputs may not be observable in the market directly, but can be determined from observable prices via model calibration procedures or estimated from historical data or other sources.

Quantitative information about fair value measurements using significant unobservable inputs (Level 2) is as follows:

	June 30, 2016	December 31, 2015
	February 2013 Debenture	February 2013 Debenture
Risk-free rate ¹	0.89%	1.08%
Stock price ²	C\$8.70	C\$9.06
Implied volatility ³	26.76%	30.17%
Dividend yield ⁴	3.30%	2.92%

(1) Risk-free rates were from the CAD swap curves matching the terms to maturity of the debentures.

(2) Closing price of the stock as of the valuation date.

(3) Implied volatility was computed from the trading volatility of the Company's stock.

(4) Dividend yields were from the forecast dividend yields matching the terms to maturity of the debentures.

Cash, amounts receivable, amounts payable and accruals, dividends payable, interest payable and revolving term credit facility are measured at amortized cost, since their carrying values are a reasonable approximation of fair value due to their short-term nature.

6. DEBT

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Revolving term credit facility	\$ 111,750	\$ 20,000
Convertible debentures	56,136	51,353
	\$ 167,886	\$ 71,353

REVOLVING TERM CREDIT FACILITY

The Company has access to a \$235 million revolving term credit facility (the "Credit Facility"). The Credit Facility includes a syndicate of lenders comprised of Canadian and U.S. banks. The credit facility may be further increased to \$275 million with the approval of the lenders. The Credit Facility has a maturity date of June 30, 2019. The Company has provided a general security agreement creating a first priority security interest on the assets of the Company.

During 2016, the minimum balance drawn on the credit facility was \$20,000, and the maximum amount drawn was \$114,000.

Advances under the Credit Facility are available by way of Prime, USBR and LIBOR loans as well as Banker's Acceptances. The applicable margin on advances is determined in reference to the senior funded debt-to-EBITDA ratio and is added to the applicable loan reference rate as follows: Prime and USBR loans range from 250 to 300 basis points above the respective reference rate, and LIBOR loans and Banker's Acceptances range from 350 to 400 basis points above the respective reference rate. Standby fees ranging from 87.5 to 100 basis points of the unutilized portion of the total commitment are payable, with reference to the funded debt-to-EBITDA ratio, on a quarterly basis. The Credit Facility total interest expense incurred for the six months ended June 30, 2016 amounted to \$1,582 (2015 – \$1,612). The weighted average interest rate during that period was 4.159%.

The Credit Facility agreement requires the Company to maintain the following covenants: a senior funded debt-to-EBITDA ratio not to exceed 3.25:1 as at the June 30, 2016 fiscal quarter and increasing to 4.00:1 for each fiscal quarter ending after July 1, 2016 and prior to April 1, 2017 and 3.25:1 for each fiscal quarter ending thereafter; a minimum interest coverage ratio of 1.5:1; and a consolidated total funded debt-to-capital not to exceed 55%. As at June 30, 2016, the outstanding balance of the Credit Facility was \$111,750 (December 31, 2015 – \$20,000) and the Company was in compliance with each of the covenants of the Credit Facility.

Convertible debentures

The debt component of the convertible debentures (the "Debentures") recognized on the consolidated balance sheet were calculated as follows:

	February 2013 Debentur			
(in thousands of dollars)	USD ¹	CAD		
June 30, 2016				
Face value outstanding	\$ 66,373	\$ 85,731		
Less: Transaction costs (net of amortization)	(1,868)	(2,413)		
Liability component on initial recognition	64,505	83,318		
Debentures discount (net of amortization)	(8,369)	(10,810)		
Convertible debentures	\$ 56,136	\$ 72,508		

	February 2013 Debenture					
(in thousands of dollars)	USD ¹	CAD				
December 31, 2015						
Face value outstanding	\$ 61,940	\$ 85,731				
Less: Transaction costs (net of amortization)	(1,957)	(2,709)				
Liability component on initial recognition	59,983	83,022				
Debentures discount (net of amortization)	(8,630)	(11,945)				
Convertible debentures	\$ 51,353	\$ 71,077				

(1) Balance translated at period-end exchange rate.

The above carrying values were recognized at amortized cost after discounting the future interest and principal payments using the effective interest rates. The fair value of the debt components of the Debentures is \$66,081 (C\$85,354) as of June 30, 2016 and \$60,852 (C\$84,219) as of December 31, 2015. The difference between the amortized cost and implied fair value is a result of the difference between the effective interest rate and the market risk-free rate.

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

The face and weighted average interest rates are as follows:

		Effective		Debt b	alance
(in thousands of U.S. dollars)	Coupon interest rates	interest rates	Maturity dates	June 30, 2016	December 31, 2015
Fixed Rate					
February 2013 Debenture	5.60%	6.46%	2020	\$ 56,136	\$ 51,353
Total fixed-rate debt	5.60%	6.46%		56,136	51,353
Variable Rate					
Revolving term credit facility	4.00%	4.00%	2019	111,750	20,000
Total debt	4.53%	4.82%		\$ 167,886	\$ 71,353

The scheduled principal repayments and debt maturities are as follows:

(in thousands of U.S. dollars)	Revolving term credit facility	Convertible debentures	Total
2016	\$ -	\$ -	\$ -
2017	-	-	-
2018	-	-	-
2019	111,750	-	111,750
2020	-	66,373	66,373
2021	-	-	-
2022 and thereafter	-	-	-
	111,750	66,373	178,123
Transaction costs (net of amortization)			(1,868)
Debentures discount (net of amortization)			(8,369)
			\$ 167,886

7. AMOUNTS PAYABLE AND ACCRUED LIABILITIES

Payables and accruals consist of amounts payable and accruals, income taxes payable, and interest payable, as follows:

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Accrued liabilities	\$ 5,852	\$ 6,017
Income taxes payable	2,206	-
Interest payable	1,653	1,604
Total	\$ 9,711	\$ 7,621

8. DERIVATIVE FINANCIAL INSTRUMENTS

The conversion and redemption features of the convertible debentures are combined pursuant to IAS 39, "Financial Instruments: Recognition and Measurement", and are measured at fair value at each reporting period using model calibration.

The conversion and redemption components were valued using a binomial pricing model and then the valued amount was calibrated to the traded price of the underlying debentures. The valuation model uses market-based inputs including the spot price of the underlying equity, implied volatility of the equity, risk-free rates from the CAD swap curves and dividend yields related to the equity.

The valuation of the conversion and redemption components assumes that the debentures are held to maturity.

As at June 30, 2016, the fair value of the embedded derivative payable on the February 2013 Debenture decreased by \$3,328 (C\$4,299), primarily as a result of a decrease in the price of the Company's stock in relation to the conversion price of the underlying debentures. The decrease in fair value of the embedded derivative was offset by an increase of \$600 due to foreign exchange revaluation, resulting in a fair value at June 30, 2016 of \$5,648 (C\$7,295). The net fair value gain on derivative financial instruments was \$3,328 (C\$4,299) (2015 – loss of \$32,007).

The assumed conversion of the debentures was dilutive due to the gain recognized on the derivative financial instruments in the six months ended June 30, 2016; as a result, the shares issuable on conversion were included in the weighted average diluted shares outstanding for the six months ended June 30, 2016. The comparative period in 2015 excluded the impact of the assumed conversion.

The assumed conversion of the debentures was also dilutive in the three months ended June 30, 2016; as a result, the shares issuable on conversion were included in the weighted average diluted shares outstanding for the three months ended June 30, 2016. The comparative quarter in 2015 also included the impact of the assumed conversion.

9. INCOME TAXES

	For the 1	hree Mon	ths Ended June 3	For the Six Months Ended June 30			
(in thousands of U.S. dollars)		2016		2015		2016	2015
Current income tax	\$	(714)	\$ ((481)	\$	854	\$ 1,135
Deferred income tax		2,235	((425)		3,314	3,419
Income tax expense (recovery)	\$	1,521	\$ ((906)	\$	4,168	\$ 4,554

The tax on the Company's income before income taxes differs from the theoretical amount that would arise using the weighted average tax rate applicable to income of the consolidated entities as follows:

	For the Three Mont	ths Ended June 30	For the Six Months Ended June 30		
(in thousands of U.S. dollars)	2016	2015	2016	2015	
Income before non-controlling interest and income taxes	\$ 15,843	\$ 6,025	\$ 31,347	\$ 529	
Combined statutory federal and provincial income tax rate	26.50%	26.50%	26.50%	26.50%	
Expected income tax expense	4,198	1,597	8,307	140	
Tax rate differential (foreign tax rates)	(102)	234	(39)	374	
Tax effects of					
Permanent differences ¹	(2,344)	(3,028)	(4,177)	(809)	
Prior year adjustments associated with exit strategy changes ²	-	977	-	5,228	
Other ³	(231)	(686)	77	(379)	
Income tax expense (recovery)	\$ 1,521	\$ (906)	\$ 4,168	\$ 4,554	

Permanent differences for 2016 are comprised of the following: (a) the non-taxable portion of unrealized foreign exchange gains/losses on the convertible debentures;
 (b) the non-taxable portion of the unrealized gain recognized on the investment in Tricon American Homes; and (c) the fair value change of the derivative, and obligations related to investments held under repurchase agreement.

(2) As a result of a change in the exit strategy for TAH and TLC, portfolio gains will be taxed at capital gains rates instead of ordinary income rates.

(3) Other adjustments includes revaluation due to change of presentation currency.

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

The expected realization of deferred tax assets and deferred tax liabilities is as follows:

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Deferred tax assets:		
Deferred tax assets to be recovered after more than 12 months	\$ 13,359	\$ 11,282
Total deferred tax assets	\$ 13,359	\$ 11,282
Deferred tax liabilities:		
Deferred tax liabilities reversing after more than 12 months	\$ 24,204	\$ 20,600
Total deferred tax liabilities	\$ 24,204	\$ 20,600

The movement of the deferred tax accounts was as follows:

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Change in net deferred tax liabilities:		
Opening balance	\$ 9,318	\$ 7,554
Credit (charge) to the statement of comprehensive income	3,314	3,014
Credit (charge) directly to equity	(1,363)	-
Other	(424)	(1,250)
Closing balance	\$ 10,845	\$ 9,318

The tax effects of the significant components of temporary differences giving rise to the Company's deferred income tax assets and liabilities were as follows:

Long-term				
incentive plan	Issuance	Net operating		
accrual	costs	losses	Other	Total
\$ 4,455	\$ 1,621	\$ 4,912	\$ 294	\$ 11,282

Tricon will have sufficient future income to realize the deferred tax assets.

10. INTANGIBLE ASSETS

The intangible assets are comprised as follows:

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Placement fees	\$ 2,140	\$ 2,471
Rights to performance fees	235	250
Customer relationship		
intangible	5,531	5,788
Contractual development fees	19,766	22,018
Total intangible assets	\$ 27,672	\$ 30,527

Intangible assets represent future management fees, development fees and commissions that Tricon expects to collect over the life of the projects that the Company manages. They are amortized by project over the estimated periods that the projects expect to collect these fees, which range from 2 to 13 years. The customer relationship intangible from Johnson represents the management fees, development fees and commissions that Tricon will collect from future projects. These are based on future projects which are a result of Johnson's existing customer relationships, and as such are considered to be definite-life intangibles.

11. OTHER ASSETS

Distant and successful

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Office equipment	\$ 762	\$ 529
Leasehold improvements	284	299
Goodwill	219	219
Total other assets	\$ 1,265	\$ 1,047

There were no impairment charges for the six months ended June 30, 2016 and June 30, 2015.

District and the function of the second

(1) Dividends are issued and paid in Canadian dollars. For reporting purposes, amounts are translated to USD using the noon rate on the date of record.

(2) Dividends reinvested are translated to USD using the noon rate on the date common shares are issued.

On November 20, 2012, the Company implemented a Dividend Reinvestment Plan under which eligible shareholders of the Company may elect to have all or part of their cash dividend automatically reinvested into additional common shares. These additional shares are issued from treasury (or purchased on the open market) on the applicable dividend payment date and are priced at 97% of the average market price, calculated as the volume weighted trading price of the Company's common shares on the TSX over the five business days immediately preceding the dividend payment date. If common shares are purchased in the open market, they are priced at the average weighted cost of the Company's common shares on the TSX over the five business days following the dividend payment date.

Brokerage, commissions and service fees are not charged to shareholders for purchases or withdrawals of the Company's shares under the DRIP, and all DRIP administrative costs are assumed by the Company.

For the six months ended June 30, 2016, 335,550 common shares were issued under the DRIP (2015 – 150,139) for a total amount of 1,986 (2015 – 1,188).

On August 9, 2016, the Board of Directors of the Company declared a dividend of six and one half cents per share in Canadian dollars payable on October 15, 2016 to shareholders of record on September 30, 2016.

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

13. SHARE CAPITAL

(1) On January 15 and April 15, 2016, 335,550 common shares were issued under the DRIP at an average price of \$5.92 (C\$8.08) per share.

(2) In 2016, 110,300 deferred shared units (DSUs) were vested and exercised at an average price of \$6.96 (C\$9.54).

(3) The increase in share capital relates to tax savings connected to equity issuance costs.

The Company can issue an unlimited number of common shares and an unlimited number of redeemable and retractable Class A, B and C shares. The common shares of the Company do not have par value.

As of June 30, 2016, the Company had 112,239,181 common shares outstanding (December 31, 2015 - 112,037,851).

14. INCOME PER SHARE

BASIC

Basic income per share is calculated by dividing net income by the sum of the weighted average number of shares outstanding, vested phantom units and vested deferred share units during the period.

	For the Three Mont	hs Ended June 30	For the Six Months Ended June 30		
(in thousands of U.S. dollars)	2016	2015	2016	2015	
Net income (loss)	\$ 14,325	\$ 7,234	\$ 27,559	\$ (3,682)	
Weighted average number of common shares outstanding	112,209,583	90,508,682	112,154,975	90,428,035	
Adjustments for vested units	281,797	280,688	281,797	280,688	
Weighted average number of common shares outstanding					
for basic earnings per share	112,491,380	90,789,370	112,436,772	90,708,723	
Basic net income (loss) per share	\$ 0.13	\$ 0.08	\$ 0.25	\$ (0.04)	

DILUTED

Diluted income per share is calculated by adjusting the weighted average number of shares outstanding to assume conversion of all potential dilutive shares. The Company has three categories of potential dilutive shares related to stock compensation: stock options, deferred share unit plan (see Note 15) and the convertible debentures (see Note 8). For the stock compensation, a calculation is done to determine the number of shares that could have been acquired at fair value (determined using the market price of the Company's shares as of June 30, 2016) based on the monetary value of the stock compensation arrangements. The number of shares that would have been issued assuming the vesting of the stock compensation arrangement and conversion of debentures.

Stock compensation

For the six months ended June 30, 2016, the Company's stock compensation plans resulted in 1,860,299 dilutive share units (June 30, 2015 – 1,412,347) as the exercise price of the potential share units is below the average market share price of \$6.39 (C\$8.50) for the six-month period.

For the three months ended June 30, 2016, the Company's stock compensation plans resulted in 1,885,150 dilutive share units (June 30, 2015 – 1,506,223) as the exercise price of the potential share units is below the average market share price of \$6.73 (C\$8.67) for the three months.

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

Convertible debentures

For the six months ended June 30, 2016, the Company's convertible debentures are dilutive (June 30, 2015 – anti-dilutive). For the three months ended June 30, 2016, the Company's convertible debentures are dilutive (June 30, 2015 – dilutive) as debenture interest expense and the change in fair value of the derivative financial instruments, net of tax, would not result in an increased net income per share upon conversion.

	For the Three Mont	ns Ended June 30	For the Six Months Ended June 30		
(in thousands of U.S. dollars)	2016	2015	2016	2015

Total compensation expense (recovery)	\$ 1,897	\$ 405	\$ 1,625	\$ (414)	

For the Six Months Ended June 30	2016		2015		
(in thousands of U.S. dollars)	AIP	LTIP	AIP	LTIP	
Cash accrual	\$ 2,568	\$ (1,774)	\$ 1,748	\$ (430)	
Phantom units	-	-	-	-	
Deferred share units ("DSUs")	1,667	1,203	1,166	856	
Stock options	-	502	-	347	
DRIP and revaluation loss (gain)	(3)	134	(26)	449	
Total compensation expense	\$ 4,232	\$ 65	\$ 2,888	\$ 1,222	

The changes to transactions of the various cash-settled and equitysettled arrangements during the year are detailed in the sections below.

CASH SETTLED

AIP – For the six months ended June 30, 2016, the Company accrued \$4,235 (2015 – \$2,914) in relation to the AIP, of which 60%, or \$2,568, is expected be settled in cash in February 2017. The balance of the AIP accrual will be paid in DSUs, which will vest one year from the grant date.

On February 12, 2016, the Company paid \$1,872 in relation to the 2015 AIP.

LTIP – A liability for cash-settled LTIP awards is accrued based on expected performance fees that would be generated from the fair value of the assets within each fund or separate account but disbursed only when such performance fees are earned and recognized as revenue. Changes in LTIP are primarily caused by changes to fair values of fund assets, which result from timing and cash flow changes at the project level of each fund and changing business conditions.

For the six months ended June 30, 2016, the Company reduced its accrual by \$1,774 related to cash-settled LTIP (2015 – \$430 accrual decrease), as a result of a reduction in expected performance fees from commingled funds (excluding THP1 US) and separate accounts/side-car investments that will be paid over pre-established vesting periods specific to each commingled fund or separate account/side-car commencing on the anniversary date of the award.

PHANTOM UNIT PLAN ("PUP")

On August 13, 2013, as a result of the crystallization of performance fees from the acquisition of the Company's 68.4% interest in the THP1 US limited partnership, 584,252 phantom units were granted on a fully vested basis and held in escrow to be released over three years on the anniversary date of the transaction. The Company estimated that 30% of the benefit value will be settled in cash to satisfy tax withholding requirements and accordingly, this cash-settled component is fair valued at each reporting period and resulted in a \$16 gain for the six months ended June 30, 2016, which is included in the revaluation gain.

DEFERRED SHARE UNITS ("DSUs")

AIP – For the six months ended June 30, 2016, the Company accrued \$1,667 in AIP expense (2015 – \$1,166), representing approximately 40% of the 2016 AIP entitlement which will be granted in DSUs in February 2017, and will vest one year later. On February 15, 2016, 219,388 DSUs were granted at \$5.61 (C\$7.78) per unit in settlement of the 2015 AIP entitlement. The fair value of the DSUs on the grant date was \$1,231 (C\$1,707) and they will vest on February 15, 2017.

LTIP – For the six months ended June 30, 2016, the Company accrued \$1,203 in LTIP expense (2015 – \$856) relating to investment income from THP1 US that will be paid in DSUs vesting equally over a five-year period commencing on the anniversary date of each grant. Compensation expense related to the grants is recognized on a graded vesting basis and for the six months ended June 30, 2016 is comprised of \$392 relating to the current year entitlement and \$811 relating to the prior year entitlement. On February 15, 2016, 364,381 DSUs were granted at \$5.61 (C\$7.78) per unit under the 2015 DSU plan and will vest equally from 2017 to 2021.

STOCK OPTION PLAN

During the six months ended June 30, 2016, no stock options were granted (2015 – 721,500) and 8,500 stock options were exercised in the first quarter ended March 31, 2016. No options were exercised in the second quarter ended June 30, 2016. The average share price for the six months ended June 30, 2016 was C\$8.50, and C\$8.67 for the three months ended June 30, 2016.

For the six months ended June 30, 2016, the Company recorded \$502 (2015 – \$347) in relation to stock options compensation expense.

Closing balance – end of period	\$ 22,579	\$ 22,174

16. SEGMENTED INFORMATION

Management has determined the operating segments based on the investment verticals that are managed by the Company. The main segments of the Company are: Private Funds and Advisory; and Principal Investing in Tricon Housing Partners ("THP"), Tricon American Homes ("TAH"), Tricon Lifestyle Communities ("TLC"), and Tricon Luxury Residences ("TLR"). The Company evaluates segment performance based on net income less interest expense, amortization, and income taxes and adjustments for certain unrealized and non-recurring items. For directly attributable revenues and expenses, the Company allocates amounts based on the segment in which they are incurred. For non-directly attributable costs, the Company allocates amounts based on a percentage of revenue. Balance sheet items are specifically identified and allocated to the segment from which they originate.

The segmented income statement information is as follows:

For the Three Months Ended June 30, 2016	Private Funds and Advisory	ТНР	ТАН	TLC	TLR	Corporate	Total
Revenue	\$ 5,915	\$ -	\$ -	\$ -	\$ -	\$ 101	\$ 6,016

17. RELATED PARTY TRANSACTIONS AND BALANCES

The Company has a 10-year sub-lease commitment on the head office premises with Mandukwe Inc., a company owned and controlled by a current director and shareholder of Tricon. For the six months ended June 30, 2016, the Company paid \$24 in rental payments to Mandukwe, including realty taxes, maintenance and utility costs (2015 – \$27).

TRANSACTIONS WITH RELATED PARTIES

The following table summarizes revenue earned from related parties including consolidated subsidiaries. These are contractual arrangements from investment funds managed by the Company, of which the Company is the general partner of the investment. In addition, the table includes investment income from related entities fair valued by the Company.

	For the Three Mont	hs Ended June 30	For the Six Months Ended June 30

BALANCES ARISING FROM TRANSACTIONS WITH RELATED PARTIES

The items set out below are included on various line items comprising the Company's interim financial statements.

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Receivables from related parties included in amounts receivable		
Contractual fees receivable from investment funds managed	\$ 113	\$ 96
Other receivables	7,242	6,650
Employee relocation housing loans ¹	900	963
Loans receivable from investment in associates and joint ventures	20,118	18,000
Long-term incentive plan	22,579	22,174
Annual incentive plan	4,115	6,666
Dividends payable to employees and associated corporations	309	290
Other payables to related parties included in amounts payable and accruals	361	333

(1) The employee relocation housing loans are non-interest bearing for a term of five years, maturing in 2019.

Revenues and receivables from related parties relate to general partnership distributions and contractual and performance fees for services provided by the Company. The receivables are unsecured and non-interest bearing. There are no provisions recorded against receivables from related parties at June 30, 2016 (December 31, 2015 – \$nil).

18. FINANCIAL RISK MANAGEMENT

LIQUIDITY RISK

Liquidity risk is the risk that an entity will have difficulty in paying its financial liabilities as they fall due or can only do so on terms that are materially disadvantageous. Prudent liquidity risk management includes maintaining sufficient cash on hand and the availability of funding through an adequate amount of committed credit facilities. The Company uses long-term borrowings to finance its investment strategy for Tricon American Homes. Periodic cash flow forecasts are performed to ensure the Company has sufficient cash to meet operational and financing costs. Liquidity risk from the convertible debentures is mitigated by the Company's option, under the terms of the debentures, to settle the obligation with shares.

The maturity analysis of the Company's financial liabilities is as follows:

(in thousands of U.S. dollars)	Demand and				
As at June 30, 2016	less than 1 year	From 1 to 3 years	From 3 to 5 years	Later than 5 years	Total
Liabilities					
Amounts payable and accrued liabilities	\$ 9,711	\$ -	\$ -	\$ -	\$ 9,711
Dividends payable	5,648	-	-	-	5,648
Revolving term credit facility	-	-	111,750	-	111,750
Debentures payable	-	-	66,373	-	66,373
Derivative financial instruments	-	-	5,648	-	5,648
Total	\$ 15,359	\$ -	\$ 183,771	\$ -	\$ 199,130

During 2016, the change in the Company's liquidity resulted in a working capital surplus of \$8,248 (December 31, 2015 – deficit of \$19,897). As of June 30, 2016, the outstanding debt was \$111,750 (December 31, 2015 – \$20,000).

Unaudited (in thousands of U.S. dollars, except per share amounts and percentage amounts)

The details of the net current assets (liabilities) are shown below:

(in thousands of U.S. dollars)	June 30, 2016	December 31, 2015
Cash	\$ 8,695	\$ 4,493
Amounts receivable	14,912	8,088
Current assets	23,607	12,581
Amounts payable and accruals	9,711	7,621
Dividends payable	5,648	4,857
Net current assets before the undernoted	8,248	103
Revolving credit facility	-	20,000
Net current assets (liabilities)	\$ 8,248	\$ (19,897)

During the six months ended June 30, 2016, the Company received distributions of \$53,797 (2015 - \$117,164) from its investments.

19. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. The Company's capital consists of debt, including bank debt, convertible debentures, demand credit facility and shareholders' equity. In order to maintain or adjust the capital structure, the Company manages equity as capital and may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets.

As of June 30, 2016, the Company is in compliance with all bank covenants.

20. WORKING CAPITAL CHANGES

(in thousands of U.S. dollars)		
For the Six Months Ended June 30	2016	2015
Amounts receivable	\$ (6,824)	\$ 165
Prepaid expenses and deposits	(5,756)	(8,650)
Amounts payable and accruals	2,090	(10,651)
	\$ (10,490)	\$ (19,136)

21. SUBSEQUENT EVENTS

On July 20, 2016, the Company completed an investment in the Trinity Falls master planned community located in McKinney, Texas. The investment is initially being capitalized with a \$74 million contribution from Tricon and in-place development financing.

On August 4, 2016, TLC closed on the acquisition of an age-restricted manufactured housing community in Mesa, Arizona, referred to as Dollbeer. The acquisition price of \$8.8 million was financed with \$2.8 million of equity and the assumption of \$6.0 million of debt.
